

CHOSAN's Modular Hero Pack

Modular RPG Series - Version 1.0

OVERVIEW

This asset pack provides a stylized, low-poly modular armor system designed for RPG character customization. It includes a full heavy armor set along with weapon variations (light, medium, heavy) and a demo scene for quick setup.

FEATURES

- Modular armor system (mix & match parts)
- Includes headgear, shoulder pads, chest plates, gauntlets, belts, leg guards, boots, accessories, and some extra outfits.
- Weapon sets (light/medium/heavy)
- some basic poses for demo purposes
- Skinned meshes compatible with shared rig
- Optimized low-poly models
- Demo scene included
- Customizer script for randomization

SETUP INSTRUCTIONS

1. Open the Demo Scene:

Demo/Scenes/DemoScene.unity

2. Drag the base character prefab into your scene:

Prefabs/Characters/

3. Use the Customizer component to:

- Randomize armor
- Toggle parts

MODULAR SYSTEM USAGE

Each armor piece uses SkinnedMeshRenderer and is designed to work with a shared skeleton.

To swap parts via script:

- Assign new meshes using:

SkinnedMeshRenderer.sharedMesh

Ensure all meshes use the same rig structure.

DISPLAY (STATIC) MESHES

Some prefabs/fbx include non-skinned (static) versions for:

- Preview
- Scene decoration
- UI display

These do not support animation.

RENDER PIPELINE COMPATIBILITY

This asset uses the Built-in Standard shader for maximum compatibility.

To use in URP or HDRP:

- 1. Open your project
- 2. Go to:
Edit → Rendering → Materials
- 3. Choose:
 - Convert to URP
 - Convert to HDRP

All materials will automatically update.

NOTES

- Do not mix rigs between different characters
- Keep material slots consistent when swapping meshes
- Demo content can be safely removed

SUPPORT

If you encounter issues or have questions, feel free to reach out.

THANK YOU

Thank you for supporting this asset pack.

This is my first release, and your support means a lot.

More updates and improvements are planned.

If you find this asset useful, your feedback or review is greatly appreciated.
